Friction Factor calculates if a fair market is being made in the shares of BLNK. 33% of the previous 40 trading days have been positive or bullish-biased and 67% have been negative or bearish-biased.

Regulation SHO requires bona-fide market-making activities to include making purchases and sales in roughly comparable amounts. The Commission has stated that bona-fide market-making DOES NOT include activity that is related to speculative selling strategies for investment purposes of the broker-dealer and is disproportionate to the usual market making patterns or practices of the broker-dealer in that security. Likewise, where a market-maker posts continually at or near the best offer but does not also post at or near the best bid, the market-maker's activities would not generally qualify as bona-fide market-making. Moreover, a market-maker that continually executes short sales away from its posted quotes would generally not be engaging in bona-fide market-making.

BUYINS.NET monitors BLNK market-makers daily for compliance with Fair Market-Making Requirements.

About Blink Charging Co.

Blink Charging Co., through its subsidiaries, owns, operates, manufactures, and provides electric vehicle (EV) charging equipment and networked EV charging services in the United States and internationally. The company offers residential and commercial EV charging equipment that enable EV drivers to recharge at various location types. It also provides Blink Network, a cloud-based system that operates, maintains, and manages various Blink charging stations and associated charging data, back-end operations, and payment processing, as well as offers property owners, managers, parking companies, and state and municipal entities with cloud-based services that enable the remote monitoring and management of EV charging stations; and EV drivers with station information, including station location, availability, and applicable fees. In addition, the company offers EV charging hardware, software services, and service plans. It has strategic partnerships across transit/destination locations, including airports, auto dealers, healthcare/medicals, hotels, mixed-use and municipal locations, multifamily residential and condos, parks and recreation areas, parking lots, religious institutions, restaurants, retailers, schools and universities, stadiums, supermarkets, transportation hubs, and workplace locations. The company offers its services through direct sales force and resellers, as well as sells residential Level 2 chargers through various internet channels. Blink Charging Co. was founded in 2009 and is headquartered in Miami Beach, Florida.

About BUYINS.NET

BUYINS.NET, http://www.buyins.net, monitors trading in all US stocks in real time and maintains massive databases of short sale and naked short sale time and sales data, short squeeze SqueezeTrigger prices, market-maker price movements, shareholder data, statistical data on earnings, sector correlation, seasonality, hedge fund trading strategies and comparable valuations. Reports include:

REGULATORY & COMPLIANCE NEWS

Friction Factor - market-maker surveillance system tracking market-makers to determine Price Friction and compliance with new "Fair Market-Making Requirements".

RegSHO Naked Shorts - tracks EVERY failure to deliver in all US stocks and all Threshold Security Lists daily for which stocks have naked short positions.

INVESTMENTS & TRADING

SqueezeTrigger - 40 billion cell database tracks EVERY short sale (not just total short interest) in all US stocks and calculates volume weighted price that a short squeeze will begin in each stock.

Earnings Edge - predicts probability, price move and length of move before and after all US stock earnings reports.

Seasonality - predicts probability, price move and length of move based on exact time of year for all US stocks.

Group Trader - tracks sector rotation and stock correlation to its sector and predicts future moves in ALL sectors and industry groups.

Pattern Scanner - automates tracking of technical patterns and predicts next move in stocks.

GATS - tracks all strategies
