Alliance Creative Group, Inc. operates as a printing, packaging, procurement, and supply chain management company in the United States. It primarily offers creative and design, printing and packaging, direct mailing campaign, brand development and management, supply chain management, project management, event marketing, business consulting, and strategic marketing services. The company provides creative and design services, including advertising campaigns, brand identity, brochures, business cards, catalogs, direct mail, flyers, logos, manuals/media kits, marketing materials, package designs, POP displays, postcards, PowerPoint template designs, sales kits, stationary, and Websites; and flexible, folding, thermo, and corrugate packaging products. It also offers commercial offset printing services; fulfillment, assembly, and kitting services to handle initial distributions, as well as replenishment orders. The company was formerly known as Invicta Group, Inc. and changed its name to Alliance Creative Group, Inc. in November 2010. Alliance Creative Group, Inc. was founded in 2000 and is based in Schaumburg, Illinois.

Investment Highlights

- **PATTERN SCAN** predicts the price of ACGX expected to move up in the coming weeks based on the appearance of a 'Trend Line Break(3)' pattern. Specifically, a ICM Cloud Bounce variant of Trend Line Break(3) has been detected. The target is \$0.02.
- **SQUEEZETRIGGER** predicts that because ACGX closed above \$0.0032, we expect a short squeeze to begin that could quickly drive the price of ACGX considerably higher.
- **VALUATION** ACGX has a current value of \$0.05 which means the stock is undervalued compared to its Price of \$0.0018.

How WealthMakers Market Reads Work:

WealthMakers Market Reads™ provide you with market performance predictions based on proprietary technologies, trading algorithms and data to help you make better, more informed investment decisions. Here's a quick review of our predictive technologies:

- **EARNINGS** Most stock price histories show random or unpredictable movements around earnings reports. But some repeat the same pattern quarter after quarter, year after year. Earnings predicts probability, price move and length of move before and after all US stock earnings reports.
- **FRICTION FACTOR** Friction Factor is based on the relationship between the price of a stock and the volume at which it's bought and sold. Normal and abnormal Friction factor patterns can help you time your buying and selling decisions for maximum earnings potential.
- **GATS** The Global Automated Trading System (GATS) combines neural networks and genetic algorithms to reduce investment risks. GATS selects the highest probability trades in stocks, bonds, options, commodities, currencies and private equities, delivering precise, predictive and profitable data.
- **GROUP SECTOR** Certain institutions can exert buying or selling pressure over an entire industry group, pushing prices higher. Group Sector identifies stocks that most closely match their group's movement and generate powerful group consensus trading signals to help you profit from the herd mentality.
- **PATTERN SCAN** This technology automatically tracks "Trigger Events" that positively or negatively affect the value of a stock — or its perceived value among analysts — ranging from price fluctuations to natural disasters and political shifts. The results reveal patterns that can predict market movements.
- **EVENTS** Events describe the current technical situation in your stock. It displays the technicals, trend conditions and seasonal factors and automatically discovers how that stock has performed in the trading days following the occurrences of the event or combination of events. This technology automatically scans using complex historical queries based on what event is taking place right now in the stock. It then displays the probability, expected return and number of trading days for the expected move.
- **RegSHO NAKED SHORTS** Tracks EVERY failure to deliver in all US stocks and all Threshold Security Lists daily for which stocks have naked short positions
- **SEASONALITY** Seasonality analyzes more than 20 years of data to determine if stocks have a long or short seasonal bias, how many trading days the move is expected to last, the probability of that move and the percentage move the stock is expected to make based on the seasonal bias.
- **SQUEEZE TRIGGER** Our proprietary database of more than 3,500,000,000 short sale transactions allows us to calculate the exact price at which the total short interest is short in each stock. Squeeze Trigger Alerts let you know exactly when a short squeeze will start and how to trade profitably.
- **VALUATION** A stock's value is a function of its forecasted earnings per share and forecasted earnings growth, as well as profitability, interest and inflation rates. Valuation use these metrics to determine at what price a stock is undervalued or overvalued, so that you can make investment decisions accordingly.
- **INSIDER** Significant stock sales or purchases by company "insiders" (officers or directors) can be a predictor of future price movements — up or down. The Insider strategy tracks these actions and correlates them with historical data to give you an investment edge.

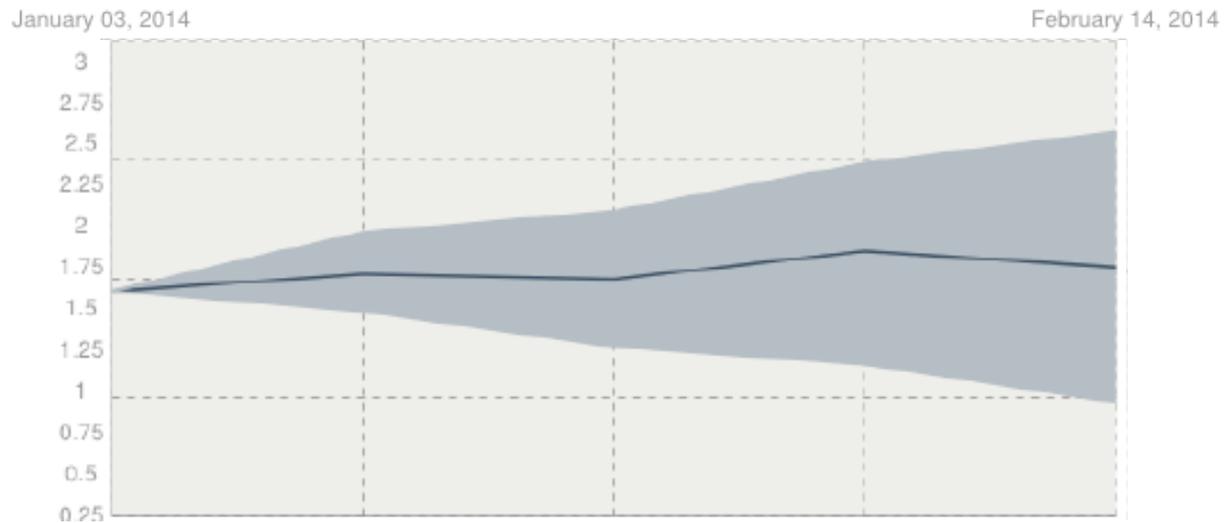

Squeeze Trigger

Calculates the exact price at which a short squeeze will start.

Alliance Creative Group (OTC: ACGX) has just triggered an alert where ACGX is close to crossing above its primary SqueezeTrigger Price, the price that a short squeeze can start in any stock. Given the amount that short sellers need to cover, it is predicted that ACGX could go up dramatically by February 14, 2014

The Cumulative Squeeze Trigger price for ACGX is \$0.0032.

This means that when ACGX closes above \$0.0032, we expect a short squeeze to begin that could quickly drive the price of ACGX considerably higher.

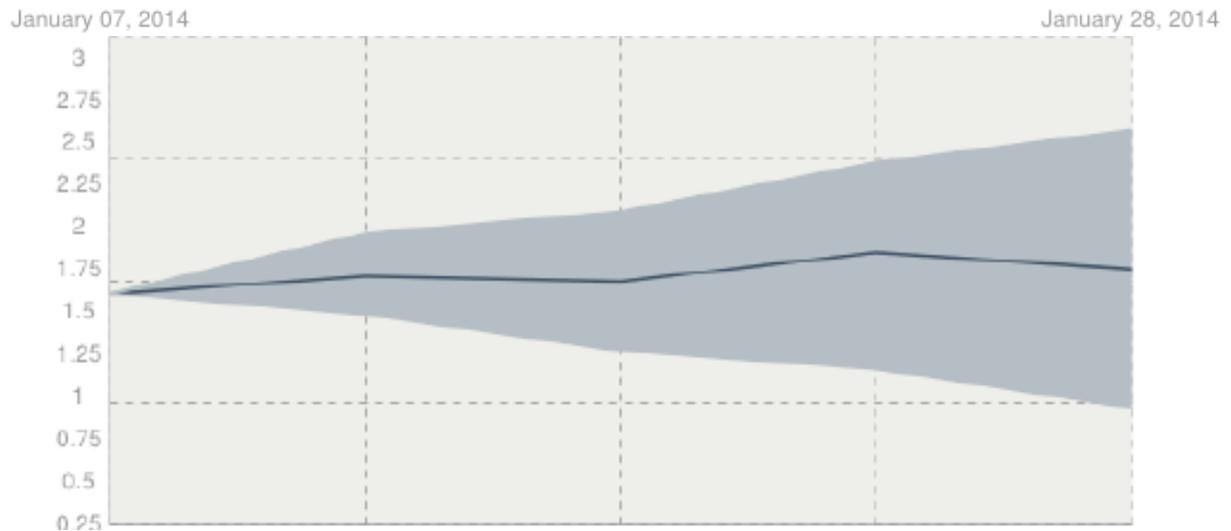

- ACGX is approaching the Squeeze Trigger price of \$0.0032.
- Based on the amount of value that short sellers need to cover, a short squeeze is predicted at \$0.0032.
- Short Sellers will be forced to buy to cover short positions, sending the price higher.

Pattern Scan

Tracks "Trigger Events" that positively or negatively affect the value of a stock.

Alliance Creative Group (OTC: ACGX) is predicted to go up in coming weeks based on bullish technical trends that have appeared in the recent performance of the stock. ACGX has demonstrated Trend Line Break(3) strategy ICM Cloud Bounce with a strength of 4.0/5. The higher the strength, the higher the probability of an accurate prediction.

- The price of ACGX expected to move up in the coming weeks.
- PatternScan has detected that a 'ICM Cloud Bounce' pattern has appeared.
- Specifically, a ICM Cloud Bounce variant of Trend Line Break(3) has been detected.
- This indicates a high probability that ACGX will move up in the coming weeks.

Squeeze Trigger

We have a proprietary database of all trading in US stocks and maintain massive databases of short sale and naked short sale time and sales data, along with short squeeze SqueezeTrigger prices. We are the only firm that knows the exact price that a short squeeze will start in every US stock.

Friction Factor

Friction Factor determines if there is normal or abnormal behavior in the price action of the stock when compared to the buying vs. selling trading statistics. It shows us how many more shares of buying than selling it takes to move a stock higher by 1 cent, or how many more shares of selling than buying it takes to drop a stock by 1 cent.

Date	Change	BuyVol	SellVol	NetVol	Friction

Valuation

Value is a measure of a stock's current worth. ACGX has a current value of \$0.05 per share. Therefore, it is undervalued compared to its Price of \$0.0018 per share. Value is computed from forecasted earnings per share, forecasted earnings growth, profitability, interest, and inflation rates. Value increases when earnings, earnings growth rate and profitability increase, and when interest and inflation rates decrease.
